

This is only a test with:
Paint to make form.bmp
Autotrace to covert form.bmp to form.epd
txt2pdf 5.4 to use the form.epd like background to this text!
We've add inside txt2pdf.cfg
bgdesign : bgdesign.txt
and inside bgdesign.txt
#!epd#./form.epd;2;0;0;2;5;5#!/epd#
That's all!
